

# AJACS eCOMPLAINT

# AJACS eCOMPLAINT

## Why Are We Doing This?

- The AJACS Case Management system has certain required fields for the proper creation of a case
- The additional fields allow long form complaints to be submitted electronically in addition to today's ATTC, parking, and photo

# AJACS eCOMPLAINT

## New Elements Common to All Complaint Types

1. Charge Qualifier (Minor, DV, Vulnerable Adult, etc)
2. Complaint Type (ATTC, PC, PE, LFC)
3. Two Law Enforcement Officers
4. More than Five Charges (long form, but could be applied to ATTC)
5. Person or Organization Flag and Organization Name

# AJACS eCOMPLAINT

ATTC

1. Fingerprint Taken
2. Vehicle Type

# AJACS eCOMPLAINT

## Photo

1. Case status update messages will be sent to vendors
2. Service and Affidavit Messages will be sent by vendors
3. Arraignment Date will be provided by AJACS to the vendor

# AJACS eCOMPLAINT

## Parking

1. Parking Meter Number
2. No Hearing Date

# AJACS eCOMPLAINT

## Long Form

1. Electronic submission from the prosecutor
2. New XML elements specific to long form:
  - Alleged Priors
  - Offense From and To dates and times
  - Prosecutor ID

# AJACS eCOMPLAINT

## Vendor Impact

1. Application logic to capture and send new data elements
2. Possible ATTC form and print utility changes
3. Logic to process return messages – (photo only)
4. Logic to send new messages – (photo only)
5. Continue to support existing model

# AJACS eCOMPLAINT

## Current Status

1. New XML structure has been defined
2. Technical specifications have been distributed to vendors
3. Test planning and preparation is in progress
4. AMCAD development is in progress
5. Vendor meetings are being scheduled
